## **SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS**

### **PREPARATION:**

Core wire: Al-Bal., Si<13.0%

### **Hazardous ingredients:**

**Important:** This section covers the materials of which the products are manufactured. The fumes and gases produced during normal use of this product are covering in Section 5. The term "Hazardous in "Hazardous Material" should be interpreted as a term required and defined in OSHA Hazard Communication Standard 29CFR 1910-1200 and it does not necessarily imply the existence of hazard. The chemicals or compounds reportable by Section 313 of SARA are marked by the symbol #.

## **SECTION 3: HAZARD IDENTIFICATION**

### **Effects of acute exposure:**

**Route(s) of entry:** Inhalation and skin contact.

**Eye and Skin:** when welding, arc rays can injure eyes and burn skin

**Inhalation:** Exposure to dust and welding fumes may cause irritation to upper respiratory tract. May cause respiratory sensitization in susceptible individuals.

Reasonable expected decomposition products from normal use of these products include a complex of the oxides of the materials listed in Section 2, as well as carbon monoxide, carbon dioxide, ozone, and nitrogen oxides (refer to "Characterization of Arc Welding Fume" available from the American Welding Society). The only way to determine the true identity of the decomposition products is by sampling and analysis. The composition and quantity of the fumes and gases to which a worker may be overexposed can be determined from a sample obtained from inside the welder's helmet, if worn, or in the worker's breathing zone. See ANSI/AWS F1.1 "Method for Sampling Airborne Particles Generated by Welding and Allied Processes". Available from the American Welding Society.

**Ingestion:** Amounts ingested incidental to industrial handling are not likely to cause injury. Single dose oral toxicity is low.

**Effects of chronic exposure:** Refer to section 11 for specific toxicological information.

## **SECTION 4: FIRST AID MEASURES**

**Inhalation:** Remove victim to fresh air if effects occur.

**Skin:** Wash off with soap and plenty of water.

**Eyes:** Irrigate with water for several minutes.

**Ingestion:** Rinse mouth.

**Note to physician:** No particular advice.

## **SECTION 5: FIRE FIGHTING MEASURES**

**Means of extinguishing:** No danger requiring special measures.

**Special protective equipment when fighting fire:** none.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Individual precautions:** Avoid dust formation/breathing dust.

**Environmental protection precautions:** No particular indications

**Cleaning measures:** Remove spoiled product mechanically.

## **SECTION 7: HANDLING AND STORAGE**

### **HANDLING:**

With standard transportation equipment.

### **STORAGE:**

Store in a dry place in closed packages.

## **SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION**

**Technical measures:** Use adequate local exhaust for welding fumes. Avoid grinding dust inhalation.

**Exposure limits:** See section 2.

### **Personal Protection:**

**-Respiratory protection:** use an air purifying dust respirator.

**-Hands protection:** wear appropriate gloves to prevent skin contact.

**-Eyes protection:** welder's helmets.

**-Skin protection:** wear appropriate overalls to prevent skin or body contact.
